

LIVE VIRTUAL TRAINING

**LIVE VIRTUAL
TRAINING**

www.inductioncenter.com

INDUCTION CENTER is a leading health and safety training and consultancy services provider, offering high quality, cost effective public and tailored short-term and long term health and safety training and consultancy solutions in the MENA region. We are approved by KPC PTC, KOC, KNPC, KGOOC and others and we have a well proven record with national and international clients including KOC, Shell, British Petroleum, Total, Weatherford, Worley Parsons, Amec foster Wheeler, Wood, KGOOC, KNPC, KGOOC, etc..

We deliver an increasing number of programs covering a wide range of aspects in occupational health and safety across a wide range of industries and we are accredited by some of the most famous internationally recognized awarding bodies including NEBOSH, IOSH, IIRSM, ROSPA, IADC, Highfield, and others to provide credibility and confidence to our clients of our commitment to best practices, high standards and continual improvements.

ON-LINE TRAINING SOLUTIONS

Cover all your business training needs at the safety of your desk

We offer an increasing number of awareness and accredited HSE e-learning programs on a very user-friendly platform that enables delegates to complete their training requirements at their convenient time, place and pace and receive their completion certificates on the spot.

Modes of Study

Choose between our Live Virtual Training Sessions where you can get actively engaged in the learning experience, get involved in live discussion with the trainer and other participants as if you were in a normal classroom setup, ask questions, clarify information and get 'real time' feedback. Or simply choose any of our growing list of interactive self-paced courses and complete at your own pace.

You chose self-paced, but you need an instructor support

No problems at all! All of our self-paced e-learning programs come with instructor support as well, so whenever you need to clarify anything, just drop your designated tutor an e-mail or even text him and he/she will get back to you with one working day if not on the spot.

Do you need support?! we are just an e-mail away

If you need any type of support, just e-mail us at e-learning@inductioncenter.com or info@inductioncenter.com and one of our team members will get back to you within 2 to 3 working days. As for technical support, we're available 24/7.

Whatever your requirements are, we are here to help!

General HSE Training
